28. The High Line Hotel  
Overall Rating: 83.056

**The Location:** In Chelsea across the street from the High Line, the West Side's picturesque elevated park.

## 28. The High Line Hotel

**The Look:** In ultra-modern Chelsea, land of sleek galleries and trendy night spots, the High Line Hotel is an elegant blast from the past. Though it only opened in 2013, the hotel is housed inside a 19th-century Gothic building that was once a seminary. Rooms retain their original architecture, feature local furniture, and get plenty of light. Sip a latte in the lobby from the on-site Intelligensia coffee bar, or sit outside in the Paris-inspired garden.
